

# TSCA CERTIFICATE OF COMPLIANCE

To Whom It May Concern,

Challenge Electronics hereby declare that our company is fully compliant with the Toxic Substances Control Act (TSCA) restrictions. Challenge Electronics is dedicated to upholding the highest standards of environmental responsibility and regulatory compliance in all aspects of our operations.

We have implemented rigorous procedures and controls to ensure that our products and manufacturing processes adhere to the requirements set forth by the TSCA. This includes the restriction of certain chemicals and substances listed under TSCA regulations, as well as ongoing monitoring and assessment to remain in alignment with any updates or amendments to the legislation.

Our commitment to TSCA compliance extends across our entire supply chain, from sourcing raw materials to the distribution of finished products. We work closely with our suppliers to verify the compliance of materials used in our products and to promote environmentally sustainable practices throughout our industry.

Furthermore, Challenge Electronics conducts regular internal audits and assessments to verify our compliance with TSCA regulations. We are dedicated to continuous improvement and strive to exceed regulatory standards wherever possible.

This declaration serves as assurance of Challenge Electronics' unwavering dedication to TSCA compliance and our ongoing efforts to contribute to a safer and more sustainable environment.
